CorpCare

Introducing CorpCare Associates, a national EAP provider since 1991.

As an OVMA member hospital, you and your employees now have access to assistance with personal concerns and family-related issues that can affect performance and attrition.

EAP services are a cost-effective solution to prevent employee problems from becoming a problem in your practice.

Stress, compassion fatigue, and mental health concerns often go untreated and are the leading cause of employee underperformance, absenteeism and attrition. That's why we are introducing EAP services as a part of our effort to focus on employee wellbeing in OVMA member practices.
